Sudoku 25x25 Volume 1

>> Instructions

Sudoku 25x25 uses similar rules to a standard Sudoku puzzle, except that rather than being 9x9 the puzzle is now 25x25. This means that you must place the letters A to Y into the grid, rather than the digits 1 to 9. So the full rules are very simple:

> Place A to Y into every row, column and bold-lined 5x5 box

A completed grid will look something like this:

W	X	Y	S	K	O	F	T	H	V	Q	P	G	D	U	N	L	E	A	J	C	M	B	R	I
J	N	Q	O	L	B	S	R	W	E	H	Y	X	I	C	T	M	G	D	F	P	V	K	U	A
